► This corrects the article “Topical Application of Probiotic-Derived EGF From *Pediococcus pentosaceus* Improves UVB-Induced Photoaging in Hairless Mice” in volume 38 on page 191.

Ann Dermatol. 2026;38(3):191-201.

Published online March 24, 2026.

<https://doi.org/10.5021/ad.25.208>

The authors regret an error in the **Funding Source** and **Acknowledgment** sections of the published article. During manuscript preparation the acknowledgement regarding material support from Cell Biotech Co., Ltd. was inadvertently omitted from the Acknowledgements section, and the corresponding statement was mistakenly included in the **Funding Source** section as financial support.

This correction clarifies that Cell Biotech Co., Ltd., provided the probiotic-derived material used in this study but did not provide research funding.

The following statement:

“This study was supported by research funding from Cell Biotech Co., Ltd., Gimpo, Korea.” should be removed from the **Funding Source** section.

Instead, the following **Acknowledgment** should be added:

ACKNOWLEDGMENT

The authors thank Cell Biotech Co., Ltd. (Gimpo, Korea) for providing the probiotic-derived material used in this study.

Accordingly, the **Funding Source** should read as follows:

This research was supported by the Chung-Ang University Research Grants in 2024 and by a grant of the Korea Health Technology R&D Project through the Korea Health Industry Development Institute (KHIDI), funded by the Ministry of Health & Welfare, Republic of Korea (grant number: RS-2023-KH136575).

The authors sincerely apologize for this error and for any confusion it may have caused.
